Explanatory Notes

- This achievement standard is derived from the Level 7 Communication, Language Knowledge, and Cultural Knowledge strands in the Learning Languages Learning Area of *The New Zealand Curriculum*, Learning Media, Ministry of Education, 2007; and is related to the material in the *Teaching and Learning Guide for Languages*, Ministry of Education, 2010 at <http://seniorsecondary.tki.org.nz>.
- Write* refers to organising text in a linguistically and culturally appropriate format and style, and may include:
 - drafting
 - reworking over a period of time.

Write a variety of text types in Korean to convey information, ideas, and opinions in genuine contexts involves writing texts that fulfil communicative intents that are as realistic as possible, and that communicate information, and express and justify ideas and opinions.

Communication is achieved overall, despite inconsistencies, such as:

- format
- spelling
- lexical choice
- level of formality
- language conventions
- language features.

Write a variety of text types in convincing Korean to convey information, ideas, and opinions in genuine contexts involves developing and connecting information, ideas, and opinions in Korean that is generally credible. A range of language and language features are selected and used that are fit for purpose and audience. Communication is not significantly hindered by inconsistencies.

Write a variety of text types in effective Korean to convey information, ideas, and opinions in genuine contexts involves developing and integrating information, ideas, and opinions in Korean that is controlled. A range of language and language features that are fit for purpose and audience are capably selected and successfully used. Communication is not hindered by inconsistencies.

- 3 *Variety* refers to a selection made from a range of different texts created for different audiences and purposes. At all times the quality of the texts in the selection, considered as a whole, is more important than length.
- 4 *Genuine contexts* refers to real-life rather than contrived or artificial situations. Where situations involve simulation, the simulation should be as realistic as possible: ie plausible, rather than contrived.
